

COST Action FP1006

“Bringing new functions to wood through surface modification”

An offer for STSMs within the COST Action FP1006

**National Institute for Laser, Plasma and Radiation Physics,
Bucharest, Romania**

The National Institute for Laser, Plasma and Radiation Physics, Magurele-Bucharest, Romania would be glad to accommodate a STSM on wood processing by plasma. The institute has available plasma systems for processing of wood products, at atmospheric or low pressure (as non-thermal plasma jets, or radiofrequency discharges).

For further information you are welcome to contact Prof. Dr. Gheorghe Dinescu.
