

Name First Name: Prof. Ing. BEKHTA Pavlo, DrSc.

Function: Head, Department of Wood-Based Composites

Affiliation: National University of Forestry & Wood Technology of Ukraine

Address: Gen.Chupryny Str.,103

Postal Code, City: 79057 Lviv

Country: UKRAINE

Email: bekhta@ukr.net

Website: <http://www.tdkm.tfnltu.lviv.ua/kolektyv/bekhta.php>

Involvement in the COST Action: Member of MC, Member of WG1

Research interest

Development of innovative wood-based composites, composites made of agricultural wastes and recycled waste materials, surface modification

Specialized technique available in my lab

Lab equipment for

- the preparation of wood-based composites (e.g. plywood, particleboard)
- the preparation and impregnation of wood
- instrument for colour measurement

Additional comment

The Department of Wood-Based Composites research team focuses its research on the development of eco-friendly products and processes (e.g. flat pressed wood-polymer composites, fire-resistant plywood, plywood using veneer of high moisture content, wood-straw particleboard).
